National Conference July 28 – 30th, 2011

San Antonio, TX

Theme: "Christian Montessori and the Spirit of Elijah"

What does God ask of us as Christian Montessori teachers? And what do we need from Him to be most effective?

Just a few of the questions that will be asked (and hopefully answered) at this year's conference. The CMF conference is different than a traditional Montessori conference. The typical Montessori conference starts from the teachings of Dr. Montessori. The CMF conference starts with the One who inspired Dr. Montessori.

The fellowship, the knowledge, the encouragement and the inspiration that comes from the CMF national conference will not only change your environment – but will change you.

This year's topics include:

Observation
The language of the classroom
Montessori science through creation.
The Hebrew vs. Greek educational mindset
Hands on Bible
The Great Lesson of Creation
Effective verbalization for children and parents
Special needs
And more ...
